Simple experience with intuitive workflow

High Definition Touch Screen

State-of-the-art fingertip operation, even with gel-covered gloves, provides simple control and setting optimization at the swipe of a finger.

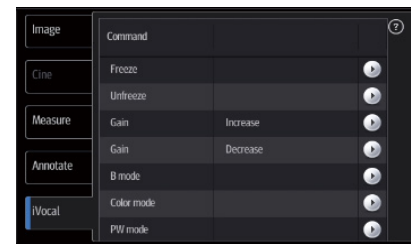

Gesture-Based Workflow

Gesture controls are the most efficient way to satisfy all clinical functions, and also allow flexibility of user-programming.

Superior performance with focused features

iVocal

Based on Artificial Intelligence voice recognition technology, iVocal allows you to remotely control the system by simple yet extensive voice commands through a wireless microphone, further enhancing ultrasound users' comfort and ergonomics during the entire procedure., supporting Adding, Deleting and Renaming voice commands for user-defined command list.

iNeedle+

2nd generation needle enhancement technology for easy needle approach to target and enhanced accuracy for guided procedures.

iNeedle+ on linear

iNeedle+ on convex

Smart design with innovative ergonomics

15" touch screen with anti-glare and wide viewing angle

Transducer cable management for cord longevity and ease of use

Built-in battery provides long battery life

Built-in wireless network

Height adjustable smart trolley
